

## Job description

Our client, in partnership with **hard.coded**, is looking for a talented **Senior Full Stack Developer** to join their innovative team. Your role will be central to developing and delivering impactful, high-quality solutions for diverse clients. This is a unique opportunity to work with cutting-edge technology, contribute to meaningful projects, and grow within a collaborative environment.

### Responsibilities

- **Full Development Cycle:** Participate in the entire software development lifecycle, from concept to deployment.
- **Tech Stack Mastery:** Design, develop, and maintain solutions using **C#, .NET**, and modern front-end technologies like **JavaScript, HTML, CSS, and WebAssembly**.
- **Database Expertise:** Work with databases like **Microsoft (Azure) SQL Server**, and optionally **SQLite**.
- **Collaboration:** Partner with other developers, designers, and stakeholders to create innovative cloud-based products and integrations.
- **Source Control:** Manage code effectively using tools like **Git**.
- **Agile Practices:** Operate within short release cycles, ensuring software is completed and delivered efficiently.
- **Innovation:** Stay up to date with the latest technologies and integrate them into projects as appropriate.

### Must-Haves

#### Experience:

- **Minimum 5-7+ years** of hands-on experience in full stack development.
- Strong expertise in **C#, .NET**, and **SOLID principles**.
- Proven front-end skills with **JavaScript, WebAssembly**, and related technologies.
- Knowledge of database systems, primarily **SQL Server**.
- Hands-on experience with version control systems like **Git**.

#### Skills:

- **Proactive mindset with attention to detail.**
- Ability to work independently and collaboratively.
- Passion for delivering high-quality, robust solutions.
- Familiarity with Agile methodologies.

### Good-to-Have

- Familiarity with **Websockets** and related technologies.
- Experience working with **cloud-based platforms**.

- A background in creating scalable and secure software solutions.

**Additional Requirements**

- **Notice Period:** Candidates with a notice period of less than **20 days** are preferred. Buyout options are available for exceptional candidates.
- **Location:** Hybrid in Mumbai

This role offers a chance to be part of a forward-thinking team that values creativity, collaboration, and technical excellence. If you're a seasoned developer eager to make an impact with your work, we'd love to hear from you!
